POLICY

In accordance with the Partnership Agreement, “Agreement” between Palomar Health and Lifepoint Health, Palomar Health Rehabilitation Institute is required to maintain consistency with both partner’s Charity Care Policies. To that end, Palomar Health Rehabilitation Institute has adopted this policy.

I. PURPOSE:

This procedure defines Palomar Health Rehabilitation Institute’s procedure for the identification, documentation, and determination of eligibility for Palomar Health Rehabilitation Institute’s Financial Assistance Programs. The practice of Palomar Health Rehabilitation Institute, where warranted, is to provide a reasonable amount of hospital services without charge to eligible patients who cannot afford to pay for care or offer reduced payment arrangements for those who qualify.

Palomar Health Rehabilitation Institute will perform the following:

- Verify your insurance coverage.
- Provide you with an estimated patient portion of charges as determined by your insurance plan.
- Bill your primary and secondary insurance carriers as provided by you at the time of registration.
- Answer questions from you or your insurance carrier regarding charges incurred.
- Automatically generate statements for the patient responsibility as indicated by your insurance.
- Educate our community on Assistance Programs and options regarding qualifications for Full Charity Care or Discounted Partial Charity Care.
- Respect our patients’ rights.

II. Definitions

- A. **Patient:** The person receiving services at Palomar Health Rehabilitation Institute, or the guarantor, who is ultimately responsible for the financial resolution of an account.

- B. **Urgent / Emergent**: Compelling immediate action or attention; occurring unexpectedly and requiring urgent action.
- C. **EMTALA: Emergency Medical Treatment and Active Labor Act**: Requires hospitals to provide care to anyone needing emergency healthcare treatment regardless of citizenship, legal status or ability to pay.
- D. **Financial Assistance Program**: The Palomar Health Rehabilitation Institute Financial Assistance Program established by this policy for providing Full Charity Care or Discounted Partial Charity Care to qualified patients.
- E. **Full Charity Care**: Medically necessary health care services provided for no charge to the patient who does not have or cannot obtain adequate financial resources to pay for his/her health care services and has met the eligibility criteria as described in this policy. Full Charity Care applies to patients qualifying under the Palomar Rehabilitation Institute's Financial Assistance Program for services not covered by a third-party payer, where the patient would otherwise be responsible for paying. If Full Charity Care is granted to a patient, it does not excuse a third party from its obligation to pay for services provided to the patient. Eligibility may be determined prior to or at the time of an admission, during a hospital stay or after a patient is discharged. Each situation is different and shall be evaluated at the time of the application based upon the patient's circumstances.
- F. **Discounted Partial Charity Care**: Medically necessary health care services provided at a reduced charge to the amount Medicare would pay for the same services or less for patients who meet eligibility criteria as described in this policy. This contrasts with bad debt, which occurs when a patient who, having the requisite financial resources to pay for health care services, has demonstrated by his/her actions an unwillingness to resolve his/her bill. Discounted Partial Charity Care applies to patients qualifying under the Palomar Health Rehabilitation Institute's Financial Assistance Program who have exhausted resources from third party payers prior to applying for this discounted program. If Discounted Partial Charity Care is granted to a patient, it does not excuse a third party or the patient from their respective obligations to pay for services provided to such patient. Eligibility may be determined prior to or at the time of an admission, during a hospital stay or after a patient is discharged. Each situation is different and shall be evaluated at the time of the application based upon the patient's circumstances.
- G. **Third Party Payer**: Defined as a public or private program, insurer, health plan, employer, multiple employer trust, or any other third party obligated to provide health benefits coverage to a patient.
- H. **Federal Poverty Level (FPL)**: The FPL guidelines establish the gross income and

- I. **Eligibility**: Full Charity Care or Discounted Partial Charity Care does not apply to services rendered by any physician, whether rendered on an inpatient or outpatient basis, or to health care providers other than Palomar Health Rehabilitation Institute.
- J. **Medically Necessary Health Care Services**: Services or supplies that are determined to be:
 - 1. Proper and needed for the diagnosis, or treatment of the patient's medical condition.
 - 2. Are provided for the diagnosis, direct care, and treatment of the patient's medical condition.
 - 3. Meet the standards of good medical practice in the local area; and
 - 4. Are not mainly for the convenience of the patient or the patient's doctor.
- K. **High Medical Costs**: Defined as the patient's annual out of pocket costs incurred by the individual at a Palomar Health Rehabilitation Institute that:
 - 5. Exceed 10% of the patient's family income in the prior 12 months; or,
 - 6. Exceed 10% of the patient's family income in the prior 12 months, if the patient provides documentation of the patient's medical expenses paid by the patient or the patient's family in the prior 12 months; or,
 - 7. A lower level as determined by hospital administration.

This procedure is to define: a charity care policy statement that explains why the Palomar Health Rehabilitation Institute is charitable and how it serves the community's needs. The charity care policy will be a part of fulfilling Palomar Health Rehabilitation Institute's charitable mission.

Palomar Health Rehabilitation Institute strives to ensure that the financial capacity of families who need healthcare services does not prevent them from seeking or receiving care. perpetuate patient health and the community's ability for continued healthcare services with Federal, State or County healthcare assistance programs.

The granting of financial assistance shall be based on an individualized determination of financial need, and shall not consider age, gender, race, ethnicity, socio-economic status, sexual orientation or religious affiliation. Information on the availability of financial assistance will be readily available and accessible to patient families or representatives, and Palomar Health Rehabilitation Institute will be responsive to the patient's/guarantor's needs.

The Financial Assistance Program is available to provide discounted or free care to eligible patients for medically necessary inpatient, emergency or outpatient services based upon the guarantor's income, as defined by the FPL.

THE GENERAL GUIDELINES FOR POSSIBLE NEED OF FINANCIAL ASSISTANCE:

- Patients who do not have or cannot obtain adequate financial resources to pay for their health care services.
- Uninsured patients, as well as insured patients for the portion of their bill not covered by insurance, may be eligible.
- Resources from third party payers, local charitable agencies, Victim of Crime, Medi-Cal, Healthy Families, etc. must be exhausted before a Full Charity or Discount Partial Charity adjustment can be applied.
- Only hospital services provided by Palomar Health Rehabilitation Institute shall be considered.
- Eligibility determinations shall be based primarily upon income and family size. While expenses and other factors may be considered, these shall not serve as the primary basis for determining eligibility.
- Clinical Determination: The evaluation of the necessity for medical treatment of any patient shall be based upon clinical judgment, regardless of insurance or financial status, in compliance with Palomar Health Rehabilitation Institute's Mission Statement. The clinical judgment of the patient's personal physician in conjunction with Palomar Health Rehabilitation Institute Medical Director shall be the primary determining criteria for a patient's admission. In cases where an emergency medical condition exists, any evaluation of payment alternatives shall occur only after an appropriate medical screening examination has occurred and necessary stabilizing services have been provided in accordance with all applicable State and Federal laws and regulations.
